- Managed spreadsheets of client data and sales data in Excel

## Varsity Athletics

---

Kenyon College Varsity Football, Punter

2018-2021

Kenyon College Varsity Baseball, Pitcher

2018-2021

## Skills

---

Google Suite; Microsoft Excel, Word, and Powerpoint; RStudio; Stata; Python

# CHUEN LOY

loy1@kenyon.edu | 413.406.8756 | LinkedIn Profile

Senior at Kenyon College seeking internships or employment in lab and research work. Skilled in lab analytics, data-driven research, and effective writing. Passionate about sustainability and solving problems creatively.

## EDUCATION

---

**Kenyon College** | Gambier, OH Expected May 2022

*Bachelor of Arts: Environmental Studies, Chemistry Minor*

- GPA: 3.92, Merit List Recipient | Athlete, Track and Field Team
- Relevant Coursework: Chemical Research Lab, Environmental Lab, Organic Lab, Thermodynamics and Kinetics, Organic Chemistry, Applied Analysis, Ecology, Food Chemistry

## WORK EXPERIENCE

---

**Ruth Heindel Biogeochemical Lab** | Gambier, OH October 2021 - Present

*Lab Researcher*

- Measuring atmospheric deposition nutrient levels (nitrate, ammonium, and phosphate levels) through different lab procedures and analyzing the results on RStudio with ANOVA, Tukey Tests, and graphical visualizations on a weekly basis.
- Cleaning funnels and filtering equipment in acid baths, installing precipitation collectors in local fields, and collecting/filtering precipitation samples every week.

**Student Playbook** | Bethesda, MD January 2021 - July 2021

*Marketing Intern*

- Researched companies that also provide career preparation programs to create a CRM database.
- Presented data from the company's college readiness surveys to supervisors. Continued research by consolidating results from high school student responses in word clouds and powerpoints.
- Wrote scripts for three onboarding videos and created the course FAQs and a user guide for navigating the program.

**Seaside Sustainability** | Gloucester, MA December 2020 - June 2021

*Business Development Team Member*

- Produced the 2020 annual report at an environmental non-profit by working with project leaders, board members, and the marketing team to summarize recent goals and accomplishments in a five page report.
- Organized partner entries on Hubspot, researched the companies, and worked in a team of eight to create outreach email templates. Updated the business plan with current projects.

**Kenyon College Office of Residential Life** | Gambier, OH September 2019 - May 2020

*Community Advisor*

- Fostered an inclusive dorm community of 39 students by organizing social and educational dorm events, responding to resident issues, and helping with roommate mediation and crisis management.

## LEADERSHIP & SERVICE

---

**Kenyon College Center for Global Engagement** | Gambier, OH August 2021

*Pre-Orientation Leader*

- Welcomed over 100 new international students to Kenyon College and helped them acclimate to life away from home. Planned orientation activities such as game nights and campus tours over one week.

**Habitat for Humanity** | Malaysia & Cambodia 2013 - 2018

*Home Build Team Member*

- Worked in teams to build homes for families in need with limited equipment and resources.

## SKILLS

---

*Technical Skills:* RStudio | HTML, CSS | Microsoft: Excel | Adobe: Photoshop & Lightroom

# Nicholas Lust

605-415-6065    nicklust111@gmail.com    Rapid City, SD

Senior economics major with strong people skills and a background in data analytics and business. Hard worker with a results-oriented mindset looking for roles in consulting, finance, and data analytics.

## Education

---

### **Kenyon College: Gambier, Ohio**

### Stanford University

September 2021 - Present

*Research Assistant*

- Conducted empirical research to analyze the economic and environmental costs of global conventional battery supply chain logistics. Analyzed current supply chain data in California to produce reports for Benchmark Minerals Int.
- Converted high granular data into actionable insights by modeling future outcomes in Stata, R and Python. Was responsible for mapping complex supply chains in RStudio and GIS.
- Modeled future circular supply chains and solved complex optimization problems using mathematical programming and machine learning. The current results of my work show up to 10.6% savings in economic costs and have attracted the interests of Redwood Materials and Benchmark Mineral Intelligence.

### Kenyon College Department of Physics

Summer 2021

*Summer Science Scholar*

- Performed Mueller Matrix-based ellipsometry to explore the anisotropy of dielectric functions of FePS<sub>3</sub>.

## WORK EXPERIENCE

---

### Stanford University - Precourt Institute for Energy

June 2021 - September 2021

*Battery Systems Engineer*

- Designed an efficient supply chain for the recovery of discarded Li-ion batteries in California, minimizing the economic and environmental costs with mixed linear/quadratic programming tools (GLPK, Gurobi).
- Collected relevant high granular/block group level data from variety of sources and coordinated statistical data analysis. Built and solved multivariable equations for optimizing the recycling of Li-ion batteries.

### Kenyon College

September 2018 - Present

*Digital Kenyon Metadata and 3D Scanning Intern & CODEX member*

- Created Digital Kenyon's first 3D model collection and developed the Immersive Classroom at Kenyon.
- Developed lesson plans and contributed to the pedagogical design of the Late Gothic Art in Fall 2021/Spring 2022 semesters. Incorporated advanced 3D technology into classes and made teaching more effective.

### ID Group

Summer 2020

*Transportation Management and Production Logistics Intern*

- Collaborated with team members to analyze and report financial information for use in decision making. Assisted with managing internal inventories by applying an ABC Analysis and FIFO method.
- Worked on reducing waste and variation by employing the Lean Six Sigma and Kaizen methodology.

## TECHNICAL STRENGTHS AND OTHER SKILLS

---

### Modeling and Analysis

RStudio, Stata, GIS, Mathematica, OceanView, PowerBI, OpenOffice

### Software & Tools

MS Office, Matlab, Maple, Origin, LaTeX

### Programming Languages

Python, C++, C, HTML, PowerShell, SQL, Gurobi, PHP, Java

### Languages

English (fluent), Russian (fluent), Kazakh (fluent)

### Time management

2 majors + 2 research/projects + 3 on campus jobs
